

An Incomplete Survey on Portraiture Vol. 1

Organized by toto

April 29th - June 20th 2026

The show gathers a large and deliberately varied group of contemporary artists around a single, deceptively simple prompt: the portrait. Not as a genre, but as a question – the gap between a person and their image, what survives representation, what exceeds the frame, and what the image fails to hold, who has been granted the right to appear, in what form, and on whose terms. Each artist has responded through their own materials and their own rhythms of looking, making the exhibition less a thesis than a conversation – open, sincere, and necessarily incomplete.
