

An Incomplete Survey on Portraiture, Vol. 2
Organized by toto

Galerie Hussenot is pleased to present *An Incomplete Survey on Portraiture, Vol. 2*.

Volume 2 takes the same body of work that constituted Volume 1 and re-hangs it, showing new angles and points of view of what a portrait can be, whilst clearing sizeable stretches of wall and floor in the process. That emptiness is deliberate – both a literal clearing and a metaphorical one – a way of making room: room to slow down, to return to each of the participants of Volume 1 in turn, and to look past the single work on the wall toward the wider practice behind it, including the side projects that surround and feed it. Where Volume 1 gathered, Volume 2 lingers.
